EDUCATION GUIDE 2022-2023

*Plan your next field trip
to Mid-America
Science Museum!*

EDUCATIONAL WORKSHOPS
AND ACTIVITIES ARE ALIGNED
TO STATE AND NATIONAL
EDUCATION STANDARDS

ONSITE WORKSHOPS

Add some extra in-depth exploration to your field trip!

\$3 each (30 minutes), Dissections \$8 each (1 hour)

CRASH FORCE (Kindergarten) Let's experiment with some force, motion and crashes!

WHAT MAKES SOUND? (1st grade) Let's make our own silly sounds, then see real sound waves in motion!

WORN OUT WORLD (2nd grade) Rocky just wants to be an important rock, but on his journey he gets changed into something special!

UNBALANCED FORCES (3rd grade) Investigate how to use unbalanced forces to make an awesome roller coaster.

PAPER CIRCUITS (4th grade) We put the "Art" in STEAM as students learn about electric circuits in creative ways.

OWL PELLET EXPLORATION (5th - 7th grade) Explore the interconnections of species in an ecosystem by evaluating skeletal remains in owl pellet castings.

DISSECTIONS (8th - 12th grade) A comprehensive hands-on experience that will guide students through the inner workings of the mammalian eye or heart.

TESLA THEATER SHOW

Enjoy this electrifying show in our Dorothy Van Lue & Albert F.W. Habeeb Tesla Theater, featuring the World's Most Powerful Conical Tesla Coil, as recorded in the Guinness Book of World Records. Our Tesla Theater honors Nikola Tesla and his contributions to modern day science.
Tesla Show (20 minutes)

OUTREACH

\$175 per first one-hour program, \$125 for additional program, same day only.
Mileage fee = \$25 if less than 50 miles, \$50 for 50 - 100 miles, and \$100 for 100 - 200 miles. Over 200 miles is federal per diem.

ARE YOU AN ENGINEER? (K - 2nd grade) Read "Rosie Revere, Engineer" and experiment with engineering your own design solutions.

ROCKET POWER (3rd - 5th grade) Your mission is to create a rocket out of paper and tape that can fly with the power of air!

GLOBAL IMPACTS (5th - 7th grade) Learn why water is our most precious resource and investigate ways to preserve it for future generations.

DISSECTION (8th - 12th grade) A comprehensive hands-on experience that will guide students through the inner workings of the mammalian eye or heart.

OAKLAWN FOUNDATION DIGITAL DOME THEATER

Travel lightyears across space and time to visit distant galaxies through the immersive 180-degree experience of our Digital Dome Theater, featuring the Digistar 7, the most advanced planetarium projection system in the world. You can also discover Earth like never before, experiencing the thrill of volcanos and arctic mountain ranges from the safety of your seat. With access to a worldwide community of digital planetariums and databases from NASA and NOAA, the Digital Dome Theater allows guests an unparalleled view of our world and our universe.

Digital Dome shows rotate seasonally, so visit our website or call (501) 767-3461 ext. 113 for more information.
